

KRILL MEAL

Irum Proteins' **Krill Meal** is produced from premium krill harvested from the nutrient-rich waters of Norway, Chile, and Russia. Naturally abundant in high-quality protein, essential amino acids, and omega-rich marine nutrients, it supports optimal growth, strong immunity, and efficient feed conversion in both aquaculture species and pets. Valued for its superior digestibility, consistent quality, and sustainably sourced raw materials, it stands as a trusted ingredient for premium aquafeed and pet food formulations worldwide.

GENERAL CHARACTERISATION

Crude Protein (%)	58
Moisture (%) (max)	10
Fat (%) (max)	25
Astaxanthin (mg/kg) (max)	115 mg
EPA (%) (min)	18
Ash (%) (max)	12

Applications of Krill Meal in Pet Food & Aquafeed:

- Provides high-quality marine protein for steady growth in pets and farmed species.
- Rich in omega fatty acids, phospholipids, and natural antioxidants.
- Supports immune health, energy metabolism, and overall vitality.
- Enhances skin condition, coat shine, and scale quality.
- Improves digestion, nutrient uptake, and feed efficiency.

Origin :

- Chile/ Norway/ Russia.

Packing:

- 25 K.G. Bags.

Certifications:

- GMP +/ HACCP
