

SHRIMP PROTEIN HYDROLYSATE

Irum Proteins' **Shrimp Protein Hydrolysate** is produced from high-quality shrimp sourced from the nutrient-rich waters of India. Naturally rich in superior protein and bioactive peptides, it enhances growth, strengthens immunity, and improves feed efficiency in aquaculture species and pets. With excellent digestibility, consistent quality, and sustainable sourcing practices, it is a trusted choice for premium aquafeed and pet food formulations.

GENERAL CHARACTERISATION

Protein (%)	40-45
Moisture (%) (max)	55
Fat (%) (max)	3
PH (10% Solution)	4.0 - 5.0
TVBN (mg per 100 gm.) (max)	150 mg
Ash (%) (max)	6
Hydrolysis (%) (min)	20

Applications of Shrimp Protein Hydrolysate in Pet Food & Aquafeed:

- Provides bioactive peptides that enhance digestion and nutrient use.
- Improves appetite stimulation and overall feed intake.
- Strengthens immunity and resilience to stress.
- Supports lean muscle growth and healthy development.
- Promotes survival rates and uniform growth performance.

Origin :

- India.

Packing:

- 200 kg Barrels.

Certifications:

- GMP +/- HACCP
